

RIGGING AND INSTALLATION

Shore Hire offers a complete installation and dismantle service for our entire propping range, including synchronised jack and lifting services.

With a team of fully qualified installers, we work in conjunction with project engineers, stakeholders, and our own in-house specialist engineers to offer a complete range of Temporary Works Solutions (TWS), ranging from concept designs to fully certified solutions.

Our professional installation team will deliver a safe and efficient install service that is delivered on time every time. We have qualified installers who specialise in propping with extensive on the job experience.

From feasibility in the tender process, project coordination, programming and installation, to providing tailored innovative solutions that regularly contribute to the success of a tender, the install division aims to work hand in hand with our clients.

By providing turnkey solutions for temporary works requirements, we have established ourselves as the market leader in rigging installation.

WHAT WE DO
