

SHORE 168 STRUTS

PURPOSE-BUILT HEAVY STRUT

The Shore 168 Strut is a purpose-built pipe strut to suit the Shore 4/6m Trench Box and the Aluminium range. The Strut is offered in increments of 250mm from 600mm up to 4000mm.

The Shore 168 Struts are connected to the side wall of the trench box spigots with connecting pins and locking clips, making assembly and dismantling quick and easy. No bolts and nuts or tools are required and there are no threads to get damaged.

SHORE 168 IN 4m-60, 6m-40 TRENCH BOX & ALUMINIUM TRENCH BOX

Strut Size in (mm)	Weight (kg)	4m-60 6m-40 Internal Width (mm)	4m-60 6m-40 External Width (mm)	Aluminium Internal Width (mm)	Aluminium External Width (mm)
600	25.3	600	800	900	1200
750	31.7	750	950	1050	1350
1000	42.2	1000	1200	1300	1600
